

AFRICA INTERNATIONAL MISSIONS

Postcards from Africa

Roger & Martha Dickson

We enjoy the beauty of Africa. Within an hour's drive from Cape Town we have the advantage of experiencing God's world of creation within a short distance from home.

Memories of yesteryear when Martha and I flew the skies of Africa in our Mooney 201. On this trip from Malawi we landed in Musina, South Africa, and then six hours non-stop to Cape Town.

The Western Cape of South Africa presents great opportunities for evangelism. We have worked the area of Ceres many times with seminars and literature distribution.

African Bush Hotel

Only Kansas farmers enjoy what Africa has to offer in basic accommodations. You should have been there in the middle of the Kalahari camping with cats.

African Bathroom

At least there is no line and you don't have to worry about putting down the lid of the loo for the ladies.

Who said storms pass only through Kansas. This storm passed not far from a camp site. It was a rough night in the tent?
